

gg::GgSimpleShader
::loadMatrix

```
graph LR; A[gg::GgSimpleShader::loadMatrix] --> B[gg::GgPointShader::loadMatrix]; B --> C[gg::GgPointShader::loadModelviewMatrix]; B --> D[gg::GgPointShader::loadProjectionMatrix];
```

The diagram illustrates a sequence of function calls. It starts with a grey box on the left, followed by a white box in the middle, and then two white boxes on the right. Blue arrows indicate the flow from left to right, branching from the middle box to the two rightmost boxes.
